

ATTENTION PARENTS,

We have purchased Rocky Mountain Sunscreen SPF #30 in bulk dispensers to apply on the children again this year. We have used this product for years, and have been very satisfied. With parent and physician permission and a small fee, we will apply this sunscreen to your child before outside activities (typically two times daily). Please do not bring bottles from home. If you choose not to use our product, you will have to apply sunscreen on your child at home before they come to school.

To give permission for your child to use Rocky Mountain Sunscreen at St. John's, please complete the following consent form and return to us with a \$13.00 fee. The cost also helps cover the purchasing of disposable gloves that we use to apply sunscreen to your child. You may include payment in your next tuition check, no cash please. Your child's physician, as well as a parent signature, are required.

We authorize St. John's Child Care Center to apply Rocky Mountain Sunscreen SPF 30 to _____ for all of his/her outdoor activities. (Child's name)

*If you choose **not** to have sunscreen applied to your child while at St. John's Child Care Center, please check here: _____
